

Fluoropolymer Solutions for the Chemical Processing Industry

AGC

Your Dreams, Our Challenge

Why AGC Fluorochemicals?

- AGC fluorochemicals help critical components of chemical processing plants withstand the harshest environments.
- The properties of our high performance resins, compounds and fluoroelastomers protect your components and equipment and keep your plant running efficiently.

Your Dreams, Our Challenge

Fluoroelastomer Components

- Rotary shaft seals
- Compression packing
- ANSI gaskets
- Flexible diaphragm seals
- Gaskets
- O-rings

Benefits of Using Fluoroelastomers

- Resist chemical attack in harsh environments
- High heat/steam resistance to service temperatures of 200°C
- Excellent volume resistivity
- Superior mechanical strength

Fluoropolymer Resin Components

- Valve, pump, vessel & pipe linings
- Butterfly disc & seat liner
- Compression packing
- Stem packing seals
- Ball valve seats
- ANSI & spiral wound gaskets
- Flexible diaphragm seals
- Distillation column trays
- Column packing
- Linings & spray coatings
- Dip pipes & spargers
- Sheet, rod & plate
- General gaskets & o-rings
- Expansion joints
- Heat exchangers, shell & tube

The Fluon ETFE logo features a cluster of green dots of varying sizes to the left of the text 'Fluon' in blue and 'ETFE' in green. A registered trademark symbol (®) is located between 'Fluon' and 'ETFE'.The Fluon PFA logo features a cluster of green dots of varying sizes to the left of the text 'Fluon' in blue and 'PFA' in green. A registered trademark symbol (®) is located between 'Fluon' and 'PFA'.The Fluon PTFE logo features a cluster of green dots of varying sizes to the left of the text 'Fluon' in blue and 'PTFE' in green. A registered trademark symbol (®) is located between 'Fluon' and 'PTFE'.

Benefits of Using Fluoropolymer Resin

- Maintain stable properties at extreme temperatures
- Outstanding physical toughness
- Low smoke and flame characteristics
- Outstanding resistance to weather & aging
- Good dielectric properties
- Non-stick characteristics
- Chemically inert

The Fluon ETFE logo features a cluster of green dots of varying sizes to the left of the text 'Fluon' in blue and 'ETFE' in green.The Fluon PFA logo features a cluster of green dots of varying sizes to the left of the text 'Fluon' in blue and 'PFA' in green.The Fluon PTFE logo features a cluster of green dots of varying sizes to the left of the text 'Fluon' in blue and 'PTFE' in green.

Fluoropolymer Compound Components

- Rider & piston rings
- Packing & oil wiper rings
- Mechanical & rotary shaft seals
- Stem packing seals
- Ball valve seats
- ANSI gaskets
- Dip pipes & spargers
- Sheet, rod & plate
- Bearing isolators
- General gaskets
- Heat exchangers, shell & tube
- Distillation column trays
- Column packing

Benefits of Using Fluoropolymer Compounds

- Excellent chemical resistance, toughness and lubricity
- Outstanding wear & creep resistance
- High mechanical strength
- Excellent thermal & electrical conductivity
- Off-the-shelf & custom compounds available

A blue-tinted photograph of an industrial facility. A long, elevated conveyor belt system, supported by a complex metal framework, extends from the left side of the frame towards the upper right. At the end of the conveyor, a stream of white material is being discharged into a large, conical pile of the same material. The background is a clear, light blue sky.

CPI Applications for Fluorochemicals

Your Dreams, Our Challenge

Fluoropolymers for Reciprocating Compressors

Fluoropolymers for Reciprocating Compressors

**Rider Rings
& Piston Rings**

Packing Rings

Oil Wiper Rings

Fluoropolymers for Distillation Columns

Column Trays

Linings &
Spray Coatings

Stock Shapes for
Machined Parts

Dip Pipes & Spargers

Column Packings

Fluoropolymers for Pumps/Valves/Piping

Mechanical Seals

**Heat Exchangers
Shell & Tube**

**Spiral Wound
Gaskets**

Ball Valve Seats

Stem Packing Seals

**Valve, Pump,
Process Vessel
& Pipe Linings**

Fluoropolymers for Pumps/Valves/Piping

**Flexible
Diaphragm Seals**

ANSI Gaskets

Rotary Shaft Seals

Compression Packings

Expansion Joints

**Butterfly Disc
& Seat Liners**

Fluoropolymers for Agitated Reactors

Bearing Isolators

Gaskets

O-rings

Mechanical Seals

**Linings &
Spray Coatings**
