Example of viscosity of CYTOP solution

Precautions for handling

Please be sure to read MSDS before using this product to ensure safe handling.

CTL-800A, CTX-800A, CTX-800S

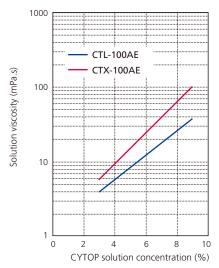

Solvent with boiling point of 180°C

^{*} This is a reference value and it does not assure performance.

CTL-100AE, CTX-100AE

Solvent with boiling point of 100°C

^{*} It is measured with a 25°C E-type viscometer.

^{*} This is a reference value and it does not assure performance
